

## Electromagnetic Suspended FM200 Hanging Fire Suppression Device Without Pollution

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: xinlin
- Certification: ISO9001,CE,QMS,CCCF,CNAS
- Model Number: XQQC20/1.6-XL
- Minimum Order Quantity: 2set system
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10-15 working days after payment or receipt of L/C
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 30000 sets per week

### Product Specification

- Volume: 20L,30L
- Agenttype: HFC227ea (Heptafluoropropane)
- Storage Pressure: 1.6MPa
- Fire Rating: Class A, B, C,E Fires
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency
- Installation: Easy To Install
- Spraying Time: Computer Room 8s others≤10s
- Cylinder Material: Steel

## Product Description

### Electromagnetic Suspended FM200 Hanging Fire Suppression Device Without Pollution

#### Product description

It's an environment protection, good electrical insulation and great efficiency in extinguishing fire, widely used in the fire protection of power distribution, archive rooms, transforming houses, computer rooms, etc. Our FM200 fire suppression system shows the characteristics of advancing technologies, easy operation, good structure, and convenient maintenance, etc. The propane heptafluoride fire firefighting system of our company has the advantages of complete designed parameters, perfect functions, accurate and reliable operation, non-leakage in long-term storage, simple installation and commissioning, and convenient operation and maintenance. The system is mainly composed of auto alarm controller, reservoir, valve driving device, selector valve, non-return valve, pressure signaler, frame, spraying nozzle and ductwork. Unit independent system and combination allocation system may be composed according to the application requirement for fire protection of one area and several areas respectively. It is applicable to the fire protection of many important places such as computer room, telecommunication center, underground works, petroleum extraction on the sea, library, archives, treasure house and power distribution.

#### Technical parameter

Product Name	FM200 Hanging System
Capacity	20L, 30L
Usage	Fire Suppression System
Installation	Easy To Install
Cost	Reasonable
Safety	High
Weight	20kg, 30kg
Structure	Flexible
Transport Package	Plywood Outer Box With Bubble Bag Or Paper
Brand Name	Xinlin
Key Words	FM200 Fire Extinguishing System, FM200 Gas Suppression System, FM200 Fire Suppression System

#### Specifications:

It adopts electromagnetic drive technology: upon receiving the composite fire alarm signal from the fire detector, the device is rapidly activated by a DC24V voltage supply, with the extinguishing agent discharge time  $\leq 10$  seconds—far exceeding the response speed of traditional fire suppression equipment. Featuring a total flooding atomized discharge design with a coverage angle  $\geq 120^\circ$ , the extinguishing agent reaches the fire source directly without pipeline loss. It quickly suppresses the fire by interrupting the combustion chain, minimizing property damage to the greatest extent. The system supports both automatic and manual activation modes. In special scenarios, it can be operated directly via the emergency button, enabling flexible response to various types of fire emergencies.

#### Company profile

Guangzhou Xinlin Firefighting Equipment Co., Ltd. is located in Guangzhou, a vital city connecting China to the world, characterized by its convenient transportation and picturesque environment. We are a manufacturing company with a professional and seasoned team of employees, consisting of solution design experts, technical installation specialists, quality inspection professionals, and after-sales service teams, dedicated to the research and development of HFC-227ea (FM200), IG541, IG100, and Novec 1230 products.

Currently, we offer a range of commonly used fire suppression systems, including FM200 fire suppression systems, cabinet-style FM200 fire suppression systems, fully automatic fire extinguisher (hanging), portable fire extinguisher, IG541 fire suppression systems, IG100 fire suppression systems, fire detection tube fire suppression systems, as well as automatic fire extinguishing pipelines.

With high quality products, perfect service and good reputation, the company has won wide praise from customers at home and abroad.

### Why choose us

- Efficient management system
- More than 10 years of experience in gas fire fighting industry
- Advanced equipment and professional engineers
- We provide 8x6 hr technical support and after-sales service

### Frequently Asked Questions

Q1: Are you a manufacturer or a trading company?

A1: We are a professional manufacturer specializing in gas fire suppression systems.

Q2: Do you offer OEM products?

A2: Yes, we welcome your own designs and drawings.

Q3: Where is your factory located?

A3: Our factory is situated in the East Lake Industrial Park of XinTang Town, Zengcheng District, Guangzhou City, Guangdong Province, China.

Q4: How can I get to your factory?

A4: Due to convenient transportation, you can reach us by taxi or by subway. If taking the subway, please take Line 13 to Shacun Station. Before disembarking, kindly inform us in advance, and we will arrange for a comfortable business van to pick you up from there.
